

I400

The I400 Convertible Chair is a no-lift, multi-functional device that helps caregivers to more efficiently and effectively perform safe patient handling practices that can help to improve patient satisfaction, safety and dignity, and reduce pain. Its Tilt-n-Space capability and therapeutic cushioning allows increased blood circulation helping to prevent skin breakdown and other complications of immobility.

Unlimited Repositioning

The I400 Barton Convertible Chair is a transfer and repositioning device for patients up to 181kg/400lb that easily converts from a stretcher to an upright mobile chair in seconds. It allows a single caregiver the ability to move a patient from a bed to a chair with little effort as well as to safely reposition them to avoid further complications that may arise from immobility. With Tilt-n-Space functionality and unlimited positions including Trendelenburg, the I400 is a versatile and efficient solution that can be used for multiple patient rooms in any facility as easily as it can be used within the home.

Easy Transfers

The I400 Barton Convertible chair when used

with the patient transfer system allows supine transfers in four easy steps (see illustrations). This not only builds confidence in both the patient and caregiver, but protects the caregiver from injury and helps drive Safe Patient Handling initiatives.

Quality

Our products are designed and manufactured to meet all the requirements of relevant standards. At every stage of the development process, every single product is given extensive attention in design, development and manufacturing. This means that a user of this product feels confident with its reliability and the caregiver feels confident with its safety.
