

# Fellow Supreme

**HUMAN CARE**  
Your Life. Your Way.

Suitable for many users, the Fellow Supreme combines high quality ergonomic design with a low centre of gravity for increased safety and stability. The forward facing handles allow the user to walk in a more upright position, which is better for both the back as well as the shoulders.

#### Unique Design

The Fellow Supreme features a unique fork construction that makes it extremely easy to maneuver, especially in smaller spaces. The flip-up seat allows the user to walk into the seat which allows them closer access to counters while doing work in and around the home.

#### Ergonomic Grips

The Fellow Supreme's soft braking system combined with the ergonomic design of the handles provide users with reduced hand functions the ability to easily lock the wheels in place and comfortably maneuver the rollator while walking. The Fellow Supreme folds easily with a one-hand operation and

can stand independently while folded. Its vast handle height adjustment range make it suitable for most users.

#### Practical Accessories

The Fellow Supreme comes with an assortment of accessories to make day-to-day life easier. From a tray to a cane holder, you can easily find an accessory to suit your needs. The grid easily removes for cleaning and maintenance.
