

rollator accessories

Our rollator accessories are manufactured to the highest quality standards and are designed to complement and increase the functionality of our rollators. Safe and easy to assemble they give the user the opportunity to customize their rollator for their own requirements and needs.

Security

Optional soft bag kits are available for the Rebel and Carl Oskar series of rollators. These kits include two bags to offer optimal storage for your daily shopping. Our neXus series of rollators comes complete with a zippered soft bag that can remain on the rollator even in the folded position. All bags conveniently close for added security.

Our identification labels feature a slip out card that can be completed to identify your rollator. They come in two vibrant options, making it easy to see your rollator from a distance.

Convenience

A convenient place to rest your drink or magazine, our trays fit quickly and easily on

most of our rollators. We also offer both cane holders and cup holders to help with those outdoor adventures. Our cane holders attach to the rollator frame and can hold either a cane or umbrella for convenient access when needed. Our cup holder holds a standard size bottle.

Accessories for Safety

We offer a selection of slow-down brakes and one-hand brakes for those users in need of additional braking requirements. Our light kit or reflector kit will aid with the visibility of the user when using the rollator in less bright environments.

Note: not all accessories are sold in all countries.
