

High Basic Sling

Our High Basic Sling is a comfortable sling and a great solution for clients who have low upper body stability. The design of the High Basic Sling is similar to the Basic Sling with the exception that it provides support to the head and neck during transfers.

Lots of support

The High Basic Sling is perfect for those clients who need a lot of support, and who have low or high tone. The sling makes transfer situations safe for both carer and client and is well suitable for lifting clients to and from the floor. In order to provide optimal support for the head and neck, the sling is equipped with two removable slats.

transfer is complete. The Polyester Net fabric is flexible, airy and dries quickly which makes it suitable for use in bathing environments. They can be used with a 2-point, 3-point or 4-point suspension depending on the need.

Easy Care and Easy Fit

Our slings are manufactured to the highest quality standards. They feature reinforced straps and high strength nylon webbing around the sling to make them strong enough to resist even the most active use. Each sling label is colour coded to ensure quick and easy selection of the correct sling and the straps are colour coded for easy determination of required positioning.

Two fabrics

The High Basic Sling is a comfortable sling that is available in two fabric choices - Polyester and Polyester Net. The Polyester Net materials allow moisture and heat to transfer efficiently from the client which allows the sling to be left behind the client for a short period of time after the
